Melbourne Exhibition Centre
Accessibility Features
Clarendon Street

SIGNAGE  MAIN ENTRANCE – CLARENDON STREET
There is large signage at the entrance of the Melbourne Exhibition Centre.

DOOR  MAIN ENTRANCE – CLARENDON STREET
The Clarendon Street entrance features wide and deep frontage with multiple door entries. All doors have vertical hand grip handles.

ACCESS AUTOMATIC RELEASE DOOR  ENTRANCE CLARENDON STREET & ENTRANCE AT SOUTH WHARF
The main entry features an automatic/manual opening and closing door with accessibility features.

ACCESS AUTOMATIC RELEASE DOOR  ENTRANCE AT CLARENDON STREET & ENTRANCE AT SOUTH WHARF
The automatic door opens on approach as a discreet sensor located within the barrier frame is triggered.

Directional signage has been painted in high visibility yellow paint at ground level in the doorway entrance.

The door is located near the accessibility ramp.
Melbourne Exhibition Centre

**Clarendon Street**

**SIGNAGE MAIN ENTRANCE – CLARENDON STREET ENTRANCE TO ACCESS RAMP**
The ramp entrance has internationally recognised blue and white signage with text reading “RAMP ACCESS”.

**ACCESS RAMP 1 MAIN ENTRANCE – CLARENDON STREET**
The access ramp features:
- Gradual elevation/descent
- Access to the automatic door into Melbourne Exhibition Centre foyer
- Bollards at the end of the ramp at street entry
- Polished brushed metal handrails on either side
- Raised tactile surface indicators at the ramp entrance and exit
- A high visibility yellow line to define ramp travel direction
- Footlights for greater visibility, and
- Contrast colour of ramp and bluestone tiled ground surface.

**ACCESS RAMP 2 MAIN ENTRANCE – CLARENDON STREET**
The access ramp at Clarendon Street runs the partial length of the Melbourne Exhibition Centre frontage. This provides access without heading into motor traffic.
The ramp features:
- Brushed metal handrails on either side.

**STAIRS MAIN ENTRANCE – CLARENDON STREET**
Shallow graded steps lead to the entrance of the Melbourne Exhibition Centre.
An access ramp is located to the left of these steps. (See Access Ramp 1, above)
Clarendon Street

**PATH ACCESS**

Wide double-paved paths run the length of the Melbourne Exhibition Centre. These are under cover and the surface is level.

**DOORS**

The side entrance doors located along the concourse feature long brushed metal handles and door operation signage.

**PAVING**

A sealed, ground-level access path runs along the length of the Melbourne Exhibition Centre to the Melbourne Convention Centre Link, and along the Yarra River frontage of the Melbourne Convention Centre to the retail area.

A line divides the path and international symbols are used to show the path is shared between pedestrians and cyclists.

Contrasting colours are used to aid visual recognition. Signage is positioned at entrance of the path in both raised text and Braille.

</table>
**Main Entrance – Clarendon Street**

**TACTILE SURFACE INDICATORS**

Tactile surface indicators are positioned before the ramp descent. They are in shaded contrast to the paved area.

Bollards are positioned on either side of the ramp.

**BOLLARDS**

Bollards with double high-reflective yellow bands provide contrast to the bluestone pavement and prevent traffic from entering the pedestrian area of the entrance to the Melbourne Exhibition Centre.

Located near access ramp.

A break in the high visibility yellow boundary line features surface tactile indicators.

**Doors**

**DOORS**

There are wide entrance doors into Exhibition Bay spaces. The floor surfaces are level.

Doors remain open and manned during exhibition opening hours.
Stairs

HANDRAILS

Brushed metal handrails located on either side follow the wall boundary of the stairwell.

STAIRCASE LEVEL 1 CONCOURSE TO BASEMENT CAR PARK

The stairwell features:
- Brushed metal handrails on either side
- Direction strip indicators on each step, and
- Contrasting wall colour.

Note: Vertical Lift access is located behind the Customer Service Counter.

STAIRCASE LEVEL 1 CONCOURSE TO BASEMENT CAR PARK

The internal concourse is carpeted. The stairwell to Basement car park features:
- Brushed metal handrails on either side, and
- Rubber directional indicators on each step.

STAIRCASE FOYER - LEVEL 1 TO LEVEL 2

The main foyer staircase to level 2 Clarendon Auditorium and meeting rooms features:
- Continuous brushed metal handrails on either side
- Rubber directional surface indicator strips on each step
- Rest area on the stairwell, and
- Frosted glass panel sides.
Stairs

**BARRIER**

LEVEL 2

Double glazed glass barrier with brushed metal handrail.

---

**LIFTS – VERTICAL ACCESS**

LIFTS FROM MEC BASEMENT CAR PARK LOCATED AT DOORS 1, 6, 10.
ALSO LOCATED MAIN FOYER (BEHIND CUSTOMER SERVICE/INFORMATION DESK)

Lifts providing vertical access feature:

- Automatic double doors
- Multi-height handrails that form a barrier to the walls and help to highlight the entrance and exit
- Highly reflective walls, and
- Level and non-slip floor surface.

---

**LIFT INTERNAL OPERATIONAL BUTTONS**

LIFTS FROM MEC BASEMENT CAR PARK LOCATED AT DOORS 1, 6, 10.
ALSO LOCATED MAIN FOYER (BEHIND CUSTOMER SERVICE COUNTER)

Lift internal operational buttons feature:

- Press button operation
- Button illumination once pressed, and
- Emergency button in red.

---

**LIFT EXTERNAL OPERATIONAL BUTTONS**

LIFTS FROM MEC BASEMENT CAR PARK LOCATED AT DOORS 1, 6, 10.
ALSO LOCATED MAIN FOYER (BEHIND CUSTOMER SERVICE COUNTER)

Lift external operational buttons feature:

- Directional Up and Down arrows that illuminate to show direction of lift travel, and
- Two push buttons with Up or Down arrows that illuminate in red when pressed.
Seating Variations – Internal and External

**SEATING**

**EXTERIOR CONCOURSE**

Semi-permanent bluestone seating along the external concourse is positioned on an angle within the colonnade.

Seating is positioned off to the side of the main access path along the external concourse.

---

**SEATING**

**INTERIOR CONCOURSE**

Low-height brushed stainless steel bench seating is positioned on an angle.

Floor surface variations separate the seated area from the walkway.

---

**SEATING**

**INTERIOR – MAIN FOYER**

Bright coloured fabric-padded bench seating is positioned against the wall to provide back support.

Seating is available with or without tables.

---

**SEATING**

**INTERIOR – LEVEL 2 – CLARENDON FOYER AND AUDITORIUM**

Low-height modular fabric bench seating is positioned against walls to provide back support and variation in seating.

Fixed back cushions can be added to provide soft back support or semi armchair support.
Personal Hygiene Amenities

PERSONAL HYGIENE – AMENITIES SIGNAGE  
CONCOURSE
Internationally recognised Access symbol is positioned above chair-height for easy identification.

PERSONAL HYGIENE – AMENITIES SIGNAGE  
ALL LEVELS
Clear signage uses the internationally recognised symbol.
The door handle is long and easy to manoeuvre and the door opens inward.

PERSONAL HYGIENE – AMENITIES SIGNAGE  
INTERNAL DOOR
The door pushes outward from the change room and operates with a slow door-closing device.
The door also has a lock for privacy.
Personal Hygiene Amenities

**PERSONAL HYGIENE AMENITIES**

Individual personal amenities feature:

- Hand basin positioned at chair-height
- Long lever handle taps
- Vanity mirror above the hand basin
- Push button soap dispenser
- Sensor operated automatic hand dryer.
- Toilets fitted with brush metal handrails
- Easy access toilet paper dispenser
- Large duel flushing press buttons
- Sanitary bins, and
- White-tiled walls with dark grey ceramic low-sheen flooring for orientation ease.

**PARENTS ROOM AMENITIES**

Parents Room features:

- Fold down infant change table with access to front and sides
- Sink with hot and cold water
- Hand towels
- Microwave oven
- Armchairs, and
- Television.

**PERSONAL HYGIENE AMENITIES**

The unisex accessible change room features:

- Hand basin positioned at chair-height
- Long lever handle taps
- Vanity mirror above the hand basin
- Push button soap dispenser
- Sensor operated automatic hand dryer.
- Toilets fitted with brush metal handrails
- Easy access toilet paper dispenser
- Large duel flushing press buttons
- Sanitary bins, and
- White-tiled walls with dark grey ceramic low-sheen flooring for orientation ease.
Personal Hygiene Amenities

PERSONAL HYGIENE AMENITIES

Signage includes the internationally recognised symbols:
- Access
- Parents Room
- Telephone
- Male and Female Personal Amenities.

PARENTS ROOM

The Parents Room features:
- Two fold-down nappy change tables
- Two hand basins
- Lever handled taps
- Press release hand soap dispenser
- Two automatic air hand dryers
- Two toilet cubicles
- Chair-height benches
- Bench seating, and
- Bin for disposable nappies.

Floor Coverings

FLOOR SURFACE VARIATIONS

Grey low pile carpet tiles run the length of the Melbourne Exhibition Centre Concourse. To the right are exposed sealed concrete tiles – providing tactile surface variances.

EXTERNAL

ACCESS EXTERNAL

Level access to:
- Melbourne Exhibition Centre
- Melbourne Convention Centre
- Hilton Melbourne South Wharf
- Melbourne Exhibition Basement Car Park, and
- South Wharf Retail Car Park.

BASEMENT CAR PARK

BAY SIGNAGE
There are 20 dedicated Access car parking bays within the Melbourne Exhibition Centre Basement Car Park. All are located near doors 1, 6 and 10 which also has access to vertical lifts.

Each Accessible car parking bay features:
- Internationally recognised symbol for Access in located at the entrance of the assigned car parking bay.
Car Park

**VERTICAL ACCESS**
Sensor operated automatic sliding doors provide access to lift and stairwell.
Large external signage is featured on brightly coloured walls.
A large painted arrow highlights direction to the lift entrance.
Safety decal barrier at chair height

**BASEMENT CAR PARK DOORS 1, 6 & 10**

**DOORS**
Doors located at the entrance of the stairs in the Basement Car Park feature:
- Double-leaf swing doors fitted with long pull/push handles, and
- The glass doors feature safety decals.

**BASEMENT CAR PARK**

**CAR PARKING PAY STATIONS**
Auto Pay Parking Machines are located near Accessible car parking spaces.
- The area is enclosed with tubular metal piping that is finished in high visibility yellow paint.
- There is wide access.
- The ground is level with non-slip surface finish.
- The car park is well lit at all times of the day and night.
- Auto Pay Parking Machines have a communication device.
Other Accessible Features

The TTA hearing-impaired telephone can be found on the Internal Concourse.

SIGNAGE INTERNAL CONCOURSE
The Internal Concourse features large signage with the symbol for TTA hearing-impaired person's telephone and ATM facilities.
Melbourne Convention Centre
Accessibility Features
Melbourne Convention Centre

**Signage, Entrances & Surrounds**

### MCC EXTERNAL - PORTE COCHÈRE

**SIGNAGE**

All external directional signage features large raised white text, directional arrows and Braille script.

The paving includes tactile surface indicators using smaller stone tiles as directional barriers before the sign.

### MCC INTERNAL - GROUND FLOOR - PORTE COCHÈRE

**SIGNAGE**

Foyer signage features large text and MCEC logo clearly displayed.

The entrance shows glazed automatic opening/closing doors with barrier decal in orange pattern. Blue and white directional door operation decals are positioned at chair-height.

### MCC GROUND FLOOR - PORTE COCHÈRE

**SIGNAGE**

Large raised font and MCEC logo.

### EXTERIOR - YARRA RIVER SIDE (POLLY WOODSIDE)

**SIGNAGE**

Concrete stairs with brushed metal handrails extend beyond the steps to the building entrance.

At the base of the stairs, the varied paver orientation indicates level changes.
Signage, Entrances & Surrounds

ACCESS RAMP EXTERNAL – CONCOURSE – YARRA RIVER
The graduated ramp provides easy access with three level resting points and brushed metal handrails on either side.
The paved surface is smooth and unobtrusive.
Raised tactile surface indicators are positioned at the entrance and exit of the ramp.

RAMP EXTERNAL HILTON MELBOURNE SOUTH WHARF
A paved low gradient ramp provides ease of access.
Low-level barriers on either side create openings into other areas.
There is low-level concrete seating at the end of the ramp, constructed with a varying colour pattern.

PAVING AND FOOTPATHS EXTERNAL HILTON MELBOURNE SOUTH WHARF
A gradient paved ramp with raised low-level barriers on either side provides easy access.

PAVING AND FOOTPATHS EXTERNAL – YARRA RIVER SIDE
Bolted wooden railroad sleepers act as a barrier to the river’s edge.
Signage, Entrances & Surrounds

**PAVING AND FOOTPATHS**
*EXTERNAL – GROUND*
Concrete tiles with mortar provide a level surface for easy access.

**PAVING AND FOOTPATHS**
*EXTERNAL – YARRA RIVER (CONTINUANCE OF MCC EXTERNAL CONCOURSE)*
Paving and footpaths feature:
- A delineation line for cyclists and pedestrians
- International symbols to indicate shared paths, and
- Contrasting colours to aid visual recognition.

**TACTILE SURFACE INDICATORS**
*EXTERNAL – DUKES WALK & ORRS WALK, DRY DOCK PUMPING STATION*
Paving is varied to create tactile and visual boundaries.

**TILES**
*MCC MAIN FOYER*
Ceramic tiles have a low-slip matt surface finish.
**Signage, Entrances & Surrounds**

**DIRECTIONAL DECALS**

**MCC LINK CONCOURSE – YARRA RIVER**

Entrances into the Melbourne Convention Centre have sensor-operated automatic glass doors.

Automatic doors have blue and white directional arrow decals to indicate the operation of electronic automatic doors.

---

**BARRIER DECALS**

**ALL WINDOWS OR GLASS PANES**

All doors and glass windows/walls on the ground floor have barrier decals positioned at chair-height.

A 15cm band featuring an orange and clear geometric pattern is used.

---

**INTERNAL LINK**

**DOORS 5 & 6 OF MEC CONCOURSE INTO MCC**

The internal link between the Melbourne Convention Centre and the Melbourne Exhibition Centre features:

- Sensor-operated automatic doors
- Safety barrier decals
- Level floor surface, and
- Large signage.

There are also two doors from the Melbourne Exhibition Centre external concourse on either side of the link.

---

**AUTOMATIC DOORS**

**LINK FROM MEC INTO MCC. CONTINUANCE OF MEC EXTERNAL CONCOURSE**

All sensor-operated automatic doors feature blue and white door opening directional arrows decal.

All doors and glass windows on the ground floor have orange and white barrier decals positioned at chair-height.
**Stairs, Escalators, Lifts**

**TACTILE SURFACE INDICATORS**

All entrances and exits of stairwells feature tactile surface indicators – low relief metal circular disks.

Each step has metal directional surface indicators.

**HANDRAILS – STAIRWELL**

Tubular brushed metal handrails begin on top of the stair rest and run the full length of the stairwell.

Handrails are located on each side and a double central handrail runs down the middle.

Handrails are bolted to the stairwell walls. Central handrails are bolted to the floor.

**BARRIER TO STAIRWELL**

Each stairwell has a barrier that extends along the side and deepest recess of the stairwell.

The barrier is a glassed wall raised to above chair-height with a smooth-edged moulded flanged metal rail.

**STAIRCASES**

The ground floor staircases feature:

- Side and central double handrails, and
- Tactile surface indicators at entrance and exit of stairs.

The colour variation and recess works as a visual aid to highlight the side handrails.

Adjacent to these staircases are escalators.
Stairs, Escalators, Lifts

**STAIR SIGNAGE**

*GROUND FLOOR*

Large raised-letter signage shows the stair location and level. The number is also used to make identification easier.

---

**ESCALATORS**

*ALL LEVELS*

There are two-direction escalators on all levels.

All escalators operate on reduced energy power and are activated to normal operational.

Speed by sensors.

Escalators have glassed slides and movement handrails on either side.

Each step on the escalator has bright yellow edging to make step delineation highly visible.

Tactile surface indicators are located at the entrance and exit of all escalators.

Adjacent to escalators are staircases.

---

**ESCALATOR/STAIR SIGNAGE**

*ALL LEVELS*

Directional signage is positioned at the entry to the escalator/stair featuring:

- Large raised text and Braille script, and
- Upper/lower case format text for reading ease.

Signage is positioned next to tactile ground surface indicators.

---

**ESCALATOR BARRIER**

*ALL LEVELS*

The barrier is a glassed wall that rises above chair-height with a smooth-edged moulded flanged metal rail.
Stairs, Escalators, Lifts

**LIFTS**

All lifts throughout the Melbourne Convention Centre feature:

- Wide double opening doors
- Metal directional strips at entry/exit
- Audible chime upon floor level arrival
- Audio announcement of floor directions and level destination
- Large operational push control buttons
- Raised lettering and Braille on all control buttons
- Illuminated operational control buttons
- Illuminated visual operational/level directional arrow display with visual media screen
- Hands-free emergency communication
- Handrails
- Side barriers below handrails
- Reflective walls for exit direction with low relief texture
- Non-slip vinyl flooring, and
- Manufacturer’s name and details.

**EXTERNAL LIFT OPERATION CONTROL BUTTONS**

Outside the lifts is a raised polished metal plate with two raised directional control buttons.

Each control button features a directional arrow and has direction in Braille below.

Once the control button has been pushed, it illuminates. Audio chime activates once the lift is at the floor level.

Warning information is inscribed into the metal plate below the operational buttons.

**MULTI-MEDIA LIFT/CONTROL BUTTONS**

All lift control buttons – both internal and external – are raised, illuminated and feature Braille script.

All lifts also feature an audible message for direction and level reached.
Stairs, Escalators, Lifts

**LIFTS – EXTERIOR FEATURES**

**GROUND FLOOR**

Lift doors are made of smooth, low-reflect stainless steel.

The surrounding wall has a large patterned finish to visually aid in locating the opening to the lift.

The lift directional arrow display is at the top left.

The lift call control button is located in the central panel between door openings and is illuminated in blue.

---

**Personal Hygiene Amenities**

**SIGNAGE**

**ALL LEVELS**

The internationally recognised blue and white Access symbol is used with text in a large raised font and Braille script.

Text is in upper/lower case format for reading ease.

---

**PERSONAL HYGIENE AMENITIES**

**ALL LEVELS**

Change rooms are fitted with tubular polished metal grip handrails.

Toilets are at chair-height for ease of access. They feature:

- Dual press button half/full flushing system, and
- Double roll toilet paper dispenser.

Floor covering is non-glare ceramic tile. Walls are white low-sheen ceramic tile.

Lighting operates on movement sensor.
Personal Hygiene Amenities

PERSONAL HYGIENE AMENITIES ALL LEVELS

Within general toilet amenities are ambulant accessible toilets featuring:
• Tubular metal handgrip rails on either side of the toilet
• Dual press button half/full flushing system
• Double roll toilet paper dispenser
• Non-glare ceramic tile floor coverings, and
• Non-glare ceramic tile walls.

The door opens outwards for easy entry.

PERSONAL HYGIENE AMENITIES ALL LEVELS

Hand basins are positioned at chair-height and feature:
• Long handled lever tap, and
• Press release soap dispenser.

Vanity mirror.

Hand paper towel dispenser and waste bin are positioned for easy access.

Floor covering and wall is non-glare ceramic tile.

Sensor operated lighting

PERSONAL HYGIENE AMENITIES ILLUSTRATION SIGNAGE

Illustrations are used within the amenities for use of hand towel drying, automatic warm air hand dryers and disposal of waste hand towel.
**Personal Hygiene Amenities**

**PERSONAL – CHANGE ROOM**

**HYGIENE AMENITIES**

Complete personal hygiene cubicles comprise of:
- Chair-height toilet
- Dual push button for full/half flush
- Hand grip railing
- Double roll toilet paper dispenser
- Wide chair-height counter for personal grooming products
- Hand basin
- Long lever tap handle
- Press release soap dispenser
- Chair-height hand towel and disposal unit
- Full length mirror
- Non-glare ceramic tiling, and
- Variation of colour between floor and wall for orientation.

**PERSONAL HYGIENE AMENITIES WITH PARENTS ROOM FACILITIES**

An infant nappy change fold-down table with safety strap is located on each floor.

These are located in the change rooms with the blue and white change room symbol.
- Chair-height toilet with handgrip railing.
- Hand towel and disposal unit are positioned at chair-height.
- Hand basin with long lever tap handle.
- Press release soap dispenser.
- Vanity mirror

**PARENTS ROOM**

The Parents Room features:
- Individual nursing room with armchair and small table
- Shared nursing room
- Kitchen area with microwave oven
- Large nappy change table area
- Graduated sink
- Disposable nappy bins
- Separate toddlers toilet with low-height amenities
- Adults toilet with handrails – low-level hand basin with long lever handle tap, low-level paper towel receptacle, and
- Push-in doors with lever handles for exiting.
Personal Hygiene Amenities

**DOOR ACCESS**
Door pushes inward. Handle inside is a lever handle.

**UNISEX PERSONAL HYGIENE AMENITIES**
